CONNECTION COMPATIBILITY

Check your device connection compatibility in the table.

| Device | Wireless USB dongle | Jack 3.5mm cable |
|-----------------|---------------------|------------------|
| PC & Laptop | ✓ | *Only audio |
| MAC | ✓ | ✓ |
| PS4 | ✓ | ✓ |
| PS5 | ✓ | ✓ |
| SWITCH | ✓ | ✓ |
| XBOX ONE | ✗ | ✓ |
| XBOX SERIES X-S | ✗ | ✓ |
| SMARTPHONE | ✗ | ✓ |
| TABLET | ✗ | ✓ |

* PC & Laptop audio cable connection: Jack splitter adapter is not included, microphone might not work if your device doesn't have audio+mic combined Jack port.

SETUP

2.4GHz Wireless connection – PC, MAC, PS4, PS5, SWITCH, Laptop

- Connect the wireless USB dongle to your desired device, switch ON the headset.
- Headset light will blink in green color while not paired. Headset will automatically pair when USB dongle is connected and lighting will change to RGB Flow mode when paired. Press ON for 3 seconds to pair.
- Select "Wireless Audio" as the default audio and microphone in your device audio settings.
- Choose EQ mode desired by tapping the button.

Jack cable connection

- Switch OFF the headset. EQ modes won't work when headset is OFF.
- Connect the headset to your desired device with the Jack 3.5mm cable.

BATTERY

- Please fully charge the battery before you use it for the first time, headset will be fully charged in 2,5 hours. If 5 beeps are played, means that battery is under 10%.
- Use the included cable to charge the headset and plug it to any USB port or USB adapter.
- Headset can be used while it is being charged, make sure headset is switched ON.
- Playtime up to 18 hours without RGB and 12 hours with RGB, times may vary depending on device, volume and audio content played.
- Headset will automatically shut down to save battery if it's not paired in 10 minutes or if there isn't audio played in 30 minutes.

| LED STATUS | DESCRIPTION |
|----------------|----------------------------|
| Blinking RED | Battery under 10% |
| Blinking RED | Headset is charging |
| Static GREEN | Battery fully charged 100% |
| Blinking GREEN | Not paired |
| RGB flow mode | Paired |

TROUBLE-SHOOTING

Unsuccessful connection

1. Make sure the wireless USB receiver is connected correctly
2. Change the Wireless USB receiver to another USB port of your device
3. If headset has not been automatically paired, press for 3 seconds ON button to pair with the USB dongle.
4. Switch OFF/ON the headset

Stuttering audio

1. Check if the device is too far from headset
2. Check if there are any obstacles between device and headset

Headset doesn't switch ON

1. Battery is low
2. Recharge it and reboot the headset
